

FIX for SLOW Computer

CLEAR INTERNET CACHE
10/14/2021 MSD

- Open Chrome Internet Browser  chrome
- Go to top right-hand corner *click* on  menu button
- *Scroll* to **History** and then scroll over  again to left and click on **History** again.

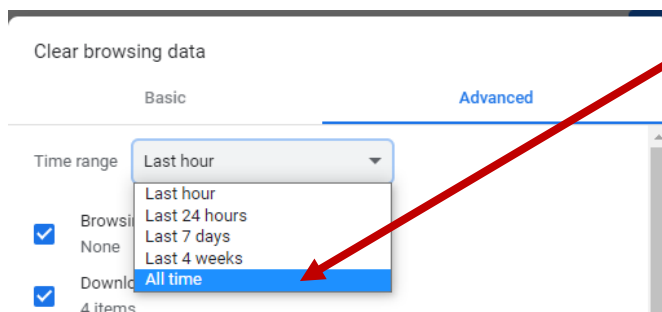

- On the left hand side, go to **History Menu**, *click on* **Clear browsing data**

NEXT PART HAS 2 STEPS

1. *Click on* **Advanced** and *change* Time range to **All time**

2. Under **Clear browsing data** menu, make sure you **scroll down** and **check all items except for PASSWORDS.**

- *Click on* 

Exit out of **Settings** tab and you are done!
